Signature: _____   Date: _____

If sending this application by mail, please be sure to include a copy of your High School transcript and send a photo to mlgcscholarships@mlgc.email

Please write a 500–700-word essay on **ONE** of the following topics:

- Describe a STEM innovation that has personally inspired you and explain why.
- Artificial Intelligence is becoming a bigger part of our lives every day, but its impact isn't always positive. Identify one recent way AI has had a negative effect on society, your community, or your personal life. What could have been done differently to prevent or reduce that negative impact, and how would you approach it if given the chance?
- What is one challenge in technology that you would like to help solve?
- How do you envision your role in advancing technology or STEM in the future?
- How do you think social media will shape the future of communication in STEM fields?
- How has the internet created new opportunities for innovation in your field of interest?
